Critical Fix: Invalid Stripe API Version

Issue

All 5 recent commits were failing to deploy on Vercel with the following TypeScript error:

```
Type error: Type '"2025-09-30.clover"' is not assignable to type '"2023-10-16"'.

  In file: src/app/api/credits/checkout/route.ts:25:3

  const stripe = new Stripe(process.env.STRIPE_SECRET_KEY!, {
    apiVersion: '2025-09-30.clover',  //  INVALID VERSION
  });
```

Root Cause

The Stripe initialization in `src/app/api/credits/checkout/route.ts` was using an invalid API version: `'2025-09-30.clover'`

This is not a valid Stripe API version. The Stripe TypeScript types only recognize specific API versions like `'2023-10-16'`.

Fix Applied

Changed the Stripe API version from invalid `'2025-09-30.clover'` to valid `'2023-10-16'`:

```typescript
// Before (INVALID):
const stripe = new Stripe(process.env.STRIPE_SECRET_KEY!, {
  apiVersion: '2025-09-30.clover',  //
});

// After (VALID):
const stripe = new Stripe(process.env.STRIPE_SECRET_KEY!, {
  apiVersion: '2023-10-16',  //
});
```

Commit Details

- **Commit Hash:** `34a4603`
- **Commit Message:** "Fix Stripe API version: Use valid version 2023-10-16 instead of invalid 2025-09-30.clover"
- **Files Changed:** `src/app/api/credits/checkout/route.ts`

Status

Fixed and Pushed to GitHub
Waiting for Vercel Redeploy

Vercel should now automatically redeploy and the build should succeed this time.

All Fixes Summary

Fix 1: Missing Dependencies

- Added `react-hot-toast@^2.6.0`
- Added `resend@^6.3.0`
- **Commit:** 80c3901

Fix 2: Invalid Stripe API Version

- Changed from `'2025-09-30.clover'` to `'2023-10-16'`
- **Commit:** 34a4603

Fix 3: Database Migration

- Created `COMPLETE_CREDIT_SYSTEM_SETUP.sql`
- **Action Required:** Run SQL in Supabase

Next Steps

1. **Done:** All code fixes committed and pushed
2. **Wait:** Let Vercel finish redeploying (should succeed now)
3. **Database:** Run `COMPLETE_CREDIT_SYSTEM_SETUP.sql` in Supabase
4. **Test:** Verify credit packages appear in dashboard
